Subject: Request for Bonneville management

I ask you to work with the Bonneville Dam resource of this state in all the ways that insure clean, affordable energy. The privatization of the energy companies has run up consumer costs. When businesses do not honor the environment, that too runs up costs by depleting nature's resources. The water is sacred and you are the current stewards. I ask you to serve as more than profiteers. I ask you to work as pioneers for a clean, sustainable watershed with real, viable salmon run options. I thank you in advance for your sincere effort to work for all in the complex system connected to Bonneville.

~~~Anahata Sounds & Ceremonies~~~

Environments and Ceremonies for Harmonious Living  
I pledge Mother Earth as my one country  
I pledge humanity as my people  
I pledge life as my religion  
I pledge love as my prayer  
I pledge peace & freedom as my birthright  
And the birthright of all humanity  
My heart beats one with all my relations.
