

Work Group 1:
Measuring What Matters
Sub-group 4 -- Evaluation

NEET Work Group
Presentation
9/9/08
Kenneth M. Keating, PhD

Useful Typology for Evaluation

- Process evaluations
- Program impact evaluation
- Technology assessment
- Verification

Evaluation Data Sources: Learning from Others

- Regional Technical Forum (RTF)
- Regional utilities
- Consortium for Energy Efficiency (CEE)
www.CEE1.org
- International Program Evaluation Conference (IEPEC) proceedings
www.iepec.org
- California Measurement Advisory Council (CALMAC) www.CALMAC.org
- Database of Energy Efficiency Resources (DEER) www.eega.cpuc.ca.gov/deer/
- Current California Evaluations

Draft Recommendations

- Region needs to commit to quality evaluations and pay for them
- Develop a Clearinghouse function to keep on top of extra-regional results
- Strategically plan for and coordinate evaluations within the region
- The RTF may be the best place to house a central clearinghouse and provide strategic evaluation planning and coordination.
