To Whom It May Concern::

This letter is to address the ISRP comments regarding the Nez Perce Soil and Water Conservation District (NPSWCD) 20020700.

The final ISRP comments on the Lapwai Creek project stated the work is supportable because of potential for anadromous fish production. Additionally, it states the revised proposal may have been acceptable if presented in the updated manor. ISRP further recommends that the Lapwai Creek is fundable thru 2007 for completion of inventories and assessments and then possibly fundable in 2008-2009 for restoration actions.

The NPSWCD agrees with these comments and hopes to complete all inventories and assessments so implementation work can continue in 2008-2009.

Sincerely,

Justin Peterson
