Subject: Draft Mainstem Amendments

Dear Members of the NWPPC,

Please count me as one of the supporters of your mission to maintain salmon runs in Oregon. As a native Oregonian who has seen the loss of so much of the natural world in the last 50+ years, I am a witness to what was a sweet- smelling, quiet place (my Oregon) and what it is now...a heartbreak of sprawl and traffic.

Now, when we are aware of the loss of quality of life, all our decisions and goals must be to protect what remains and improve what we can. I hope your document 2002-16 will be revised in recognition of your awareness of this duty to this place.

Cassidy Martinez
