These draft agendas are posted to provide locations and dates for subbasin plan presentations to the ISRP, ISAB, and PRG review teams. The final agendas may differ from this version in time allocated among subbasins and the sequence of subbasin presentations within a day. Updates will be posted as changes are made. Plan presenters, in consultation with Council staff, State Subbasin Plan Coordinators and the ISRP, will develop more detailed agendas that will identify presenters and outline the time needed for the various components of the presentation. See the Subbasin Plan Presentation Guide for pointers on developing a presentation: [www.subbasins.org/science/PresentationGuide.htm](http://www.subbasins.org/science/PresentationGuide.htm)
